Aluminized steel	passivate free from chromium	✓✓✓
Carbon steel	phosphating	✓✓✓

BAKEWARE SPRAY

Cleaning and care instructions

Wipe the outside of the tin with a wet cloth. If the baking, grill or casserole dish is stubbornly dirty, clean it under hot water, a mild washing-up liquid and the fine side of a dishwashing sponge or a soft dishwashing brush. We strongly advise against using cleaning metal sponges. Always wipe the mould dry before storing.

Coated items can be cleaned in the dishwasher, although this is not recommended due to the aggressive cleaning agents. Cleaning by hand is preferable.
