

MORE OF

GREEN DEAL

DURIT® Professional S „Galaxy Colors“
meets MAXIMIZING green

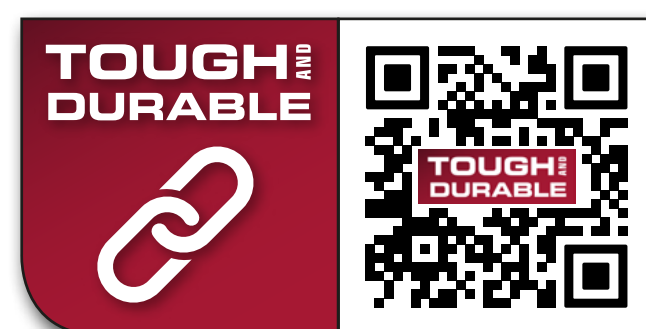

Finally, what belongs together comes together:
The excellent product properties of a professional non-stick
coating combined with the sustainability
of our MAXIMIZING green concept and the visual appeal
of an extraordinary world of colors.

Finally: You no longer have to choose between quality, sustainability and good looks.

DURIT® Professional S – our flagship among the non-stick coatings:

- Robust and durable: 3 times longer-lasting non-stick effect* compared to conventional coatings.
- Their pronounced resistance and hardness justify the predicate „for metal utensils suitable“.
- Galaxy Colors are available in four attractive colors for a high-quality appearance: Jupiter Silver, Earth Green, Neptune Blue and Uranus Violet.

MAXIMIZING green – maximum protection of environment and health:

- No use of SVHC-listed substances.
- GenX-, NMP-, APEO- and BPA-free
- Reduction of organic solvents - less environmental impact during the drying process
- Use of water-thinnable coating materials
