

DURIT® Professional Primers

Superior performance Primers

- Superior adhesion to substrate and intercoat adhesion
- Outstanding permeation resistance
- Wide window processing – High DFT can be applied
- Low VOC
- Wide colour range

DURIT® Professional P-200 Primer

Product specification

Characteristics	
Material base	Solvent based
Number of layers	2 or more
Kind of application	Conventional spraying
Recommended DFT (1)	10-15 µm
Performance profile	
Non-stick effect	n/a
Low friction properties	n/a
Corrosion resistance	★★★★
Acid resistance	★★★
Alkaline resistance	★★★

(1) DFT = to the layer itself, it's not of the total system

DURIT® Professional WX-500 Primer

Product specification

Characteristics	
Material base	Water borne
Number of layers	2 or more
Kind of application	Conventional spraying
Recommended DFT (1)	10-15 µm
Performance profile	
Non-stick effect	n/a
Low friction properties	n/a
Corrosion resistance	★★★★
Acid resistance	★★★
Alkaline resistance	★★★

These data are based on the experience and the test results that are available to us. Because of the variety of application possibilities, we give these processing instructions without obligation. This information sheet does not replace the application guide (technical data sheet) of the specific product.
